This is Jane Cortez. I'm really upset that I had seven police policemen over here to pick me up and take me to the doctor and they wouldn't even let me have my purse. And my son, Solomon Barber, came over, didn't ask me anything about anything that was going on. And he did that before and he's tried to do that over the phone, but I said no, I wasn't going to leave this house. And after that, he did his little trick with trying to get me to go with them again the second time by doing the kidnapped to the hospital. When these policemen showed up, I didn't even get to take my purse with me with all my ID. And he was planning on taking me in his car, zipping him to his house with no my approval or nothing. And that would be with no clothes, no purse, no ID, no money, no nothing to his place and destroy my life. I've been in total in a hole ever since housing didn't give me a two bedroom apartment or a house to live in. We've been stuck here for a long time and all it has been happening is they put up a big fence around this house like you would in a jail and then they started doing all the noise around the house. And we've been going through paperwork and paperwork trying to get a two-bedroom place to live and housing has been doing their thing with not cooperating, not doing the paperwork and all this. Thank you.
