Subject Reconciliation of Accounts.

I have been working for non-profit organizations LAION.AI and the Linux Foundation to build an educational AI assistant since last year, and I volunteer there as a Machine Learning Operations Engineer, and they receive cloud computing from Intel Corporation. See e.g. https://www.intel.com/content/www/us/en/developer/articles/technical/bud-e-ai-assisted-education-for-all.html

During my discussion with the founder Christoph Sushmann dl.is.great1@gmail.com , I told him that I was not allowed to give orders to the college students he was recruiting to work on it, due to minimum wage / hour laws, and I felt that the work was not being done well as a result of no leadership of those students.

In November I started a LLC in the United States, to fund the developers and business expenses, to build the AI educational avatar, and collect United states laws and case law, and the money was funded by my co founders who are European. See. e.g. Hallucinate LLC, and Worldwide Software LLC, but because they were foreign co-owners, I was unable to get a bank account opened with Chase until they were able to get passports, and have those passports notarized.

New voicemail from (503) 820-2530 Inbox ×

Voice

Hey Benjamin, this is Brandon from Chase over here at the Sellwood Branch. I just want to give you a follow-up call in regards to the voicemail that I got from you. Sounds like we we're you know, getting close to getting everything that will need there. I'll just leave some of the details there. Just make sure on the passport that we do have the ID number issue date and expiration date. Those are pretty much the main things that will need from that and it's really just the information some of the other details that we'll need that definitely. Feel free to let me know. Give me a call. 503-820-2530. I will be in the branch for a bit longer here until 5:00. I do have an appointment coming up though at 4:30. That'll take me to the end of the day. So if we can't connect today, no worries. I will be in the branch tomorrow. Hope you're doing well. Look forward to talking to you soon. Bye for now.
